Profile & Work

UX/UI Designer with experience in consulting, research and enterprise settings. Designing for complex applications, from user research and ideation through interactive Figma and Web prototypes. I hold a BA in Interaction Design from ZHdK.

UX/UI Designer

March 2026 – present, Zurich, 80%

UX & UI

- Designed complex products from 0-to-1: CRM portals, professional networking platforms and medical software.
- Designed and shipped UX/UI for large medical software projects incl. main portal and navigation, checkout, e-learning platform
- Performed and moderated ISO-based summative usability tests for a medical apps (SaMD) incl. protocol, recruiting, scoring and reporting
- Created the Alpha Factory brand of OWT's AI offering: logo, brand guidelines, sub-website (owt.swiss/en/alpha-factory)

Design-to-Code & AI

- Introduced a design-to-development pipeline (versioned token package and component contracts) that prevents drift and enables designers to prototype in code
- Built Claude skills for the design team and facilitated hands-on Claude × Figma workshops for clients

Research Associate (Design Lead @Kymu)

March 2026 – present, Zurich, 20%

UX & UI

- Responsible for UX design and research across the entire Kymu ecosystem: therapist platform, cross-platform app and TV interfaces (kymu.ch)
- Conceptualized and designed motion-controlled exergames in Blender
- Created the brand incl. logo, guidelines, design language, communication material
- Ran several design iterations and conducted usability testings with patients and physiotherapists from Lucerne Cantonal Hospital

Fundraising & Partner Management

- Created a digital health platform for gamified physical therapy (Kymu) and accumulated over CHF 160k non-dilutive funding (DIZH, Z-Kubator, Pro Helvetia)
- Sourced collaboration partners across hospitals and clinics in CH and formalized a clinical pilot project with Lucerne Cantonal Hospital
- Launched a closed beta and pitched Kymu to partners and funders at KMU Innovationstag 2026 and Creative Economies Forum 2026

UX Engineer @Sensory-Motor Systems Lab (Civil Service)
September 2025 – February 2026, Zurich

- Owned UX/UI for Calmea (calmea.com), a medical sleep-tracking platform that has since become an ETH spin-off.
- Designed the app from 0-to-1: design system, main dashboard with visualized sleep tracking data
- Implemented the product full-stack (Vue.js/TypeScript, FastAPI, PostgreSQL, real-time data)

Human-Machine Interface Designer (Internship)
July 2024 – August 2024, Wolfsburg

- Designed driver-display and in-vehicle interface concepts for e-mobility; rapid prototyping in Figma and Blender, validated with internal teams for feasibility and CX
- Co-built the Figma design system for the next Android-based infotainment platform: component specs, interaction rules and acceptance criteria

Education & Certification

2026	**CPUX-F: Certified Professional for Usability and User Experience, Foundation Level (UXQB)**
2022 – 2025	**BA in Interaction Design, Zurich University of the Arts (ZHdK)** *Bachelor thesis "Kymu", SDA Bachelor Design Award 2025*
2024	**Erasmus Semester, Design & Computer Science, Aalto University, Helsinki** *Courses incl. Software Engineering, Web Software Development, Rust*

Skills

Design	Figma, Adobe CS, Blender
AI tooling	Claude (Code, Design, custom skills & MCP), Figma Weave
Development	HTML/CSS, JavaScript/TypeScript, Vue.js, Tailwind, Mantine, Node.js, FastAPI, PostgreSQL
Methods	Design systems & tokens, design-to-code handoff, interaction design, information architecture, user research, usability testing, data visualisation, workshop facilitation
